---

## Objective:

To work and develop in areas related to Front-end Development with JavaScript, preferably using React as well as Back-end using Django for Web and Mobile.

## Work Project:

We never had a portal to showcase our services and products to our users in Cognizant. I have created one called **Tandberg Digest**, it focuses design and user-experience and is available to Cognizant users all over the globe for doubts on Video Conferencing.

## Work Experience:

Currently employed at Accenture and looking for Web Developer based opportunities.

Previously worked at Cognizant Technology Solutions and handling the Video Conferencing scope through **Networking & SSH** skills for **3 Years**.

I have built a product from scratch in my previous organization(Details under Work Project section) and having **8 months** experience in **Web development**.

## Academic Profile:

- **B.Sc.(IT)** Final Year student(2011-2014) of SNMV College of Arts and Science affiliated to Bharathiar University with **72.82%** marks.
- Completed **ISC** from Julien Day School (2009-2011) affiliated to CISCE board with **69%** marks.
- Completed **ICSE** from Julien Day School (2007-2009) with **69%** marks.

## Certifications:

- Attended workshop on Cyber Security and Cloud Computing.
- Completed Corporate Academy course on CCNA at Cognizant.
- Completed a basic MOOC course on Android Development from Coursera, an android app developed by me is hosted on GitHub.
- Attended MOOC, [Introduction to Interactive Programming in Python \(Part 1\)](#), from Rice University, Houston.
- Attended MOOC course, [HTML, CSS, and Javascript for Web Developers](#) from John Hopkins University, Houston.

## Extra-Curricular:

- Performing at Light Music Shows.
- I have a YouTube channel too, for uploading my cover music.
- Writing short stories in leisure time.

## Skills:

- Proficient knowledge on HTML5, CSS3 & Bootstrap
- Proficient in working with JavaScript, jQuery
- Comfortable with React.js UI development, API calls and States
- Key understanding of OOPs Concepts
- Hands on with Linux administration, currently using Ubuntu 16.04 LTS
- Hands-on with Python for scripting as well Django
